Skills

Cloud & Container Orchestration

- Kubernetes (Kubeadm cluster setup, EKS deployment), ArgoCD GitOps pipeline
- Docker image build / Docker-compose Infrastructure Service Operation Automation experience
- Backend programming & Infra Setup
- Django backend + MariaDB configuration
- Nginx / Apache Reverse Proxy configuration

PROFESSIONAL EXPERIENCES

Hanjin DT Strategy Department DT Planning team Assistant (2023.02 ~ 2024.08) (full-time)   seoul, Korea

[Achievements]

● Smart Office service Rollout (web-based seat/room reservation system)

Participated in vendor evaluation, WBS creation(Feb 2024 – Mar 2024), integration with SSO/SMS/SMTP

Conducted QA test scenario design and pre-launch validation

Established policies for seat reservations, meeting room bookings, and locker usage

Company-wide device lifecycle process standardization:

planned and executed annual refresh of 240+ PCs by defining specs by manual
consolidating purchasing workflow with procurement & logistics

● QA Testing contribution to smartoffice.hanjin.com
    - Conducted pre-launch testing (service rollout , Mar 4, 2024)
    - Managed the web platform targeted internal employees and collected user feedback

EDUCATION

[B.S.]
- ● Dongguk University , Seoul, Computer Engineering Bachelor's Degree (2017.3 - 2023.2)

[Bootcamp]
- ● Kakaocloudschool Engineer (2022.06-2022.12) (1st Prize)

- Team Project (Multi-DeployGo) https://github.com/kakaocloudschool/Multi_ojigo
    ○ Languages &Frameworks -Version
        -Python 3.9 - Django 4.1.3 - Bootstrap 4 - Kubernetes 1.22 -ArgoCD 2.5.2 -MariaDB 10.6
    ○ Server Infrastructure configuration by Ubuntu and Django backend development

        ■ Goal : deploy multiple applications across multi-K8S clusters via unified UI

        ■ key contributions:
        - Implemented custom Django backend REST APIs for cluster & app registration
        - Built Docker images and configured Docker Registry for versioned releases
        - Deployed service to AWS EKS using k8s manifests
        - AbstractUser custom user db model development &
        - Developed membership, login page, cluster , app registration page view

ADDITIONAL

- Language Proficiency: Native in Korean, professional proficiency in English, Partially fluent in Japanese

- Nationality: Korean citizen

- Working Holiday Japan 2026.01-

sites.google.com/view/ksh322

Certification

- Engineer Information Processing (HRDK) 2022
- Linux master (KAIT) 2021.12
- OPIC IH (ACTFL) 2023.01
